

Somerset's wildlife needs you

Somerset Council has launched a public consultation on the county's first Local Nature Recovery Strategy (LNRS).

This draft strategy sets out priorities for nature's recovery, maps Somerset's most valuable areas for wildlife, and identifies opportunities to improve habitats and deliver wider environmental benefits such as cleaner air, flood resilience and access to green spaces.

Take part in our consultation to help shape the strategy:

Scan the QR code to take part in the survey or find out more at:

www.somerset.gov.uk/somersets-nature-recovery-strategy-consultation

Consultation closes 31 October
